COMPANY OVERVIEW

ThnkBIG Technologies, a Minority-Owned (MBE) consultancy, provides transformative cloud native solutions.

Our expertise in cloud native infrastructure, Kubernetes, DevSecOps, CI/CD, observability, service mesh, and platform engineering empowers organizations. Partner with us to unlock your full potential in the cloud native landscape.

CORE CAPABILITY AREAS

Cloud Native Consulting Contracting for Managed and Professional Services assists customers in achieving their technology goals by offering technical expertise and resources to fulfill their immediate and future IT needs related to the following:

 **Kubernetes Consulting**

 **DevSecOps Consulting**

 **Observability Implementation**

 **Service Mesh Consulting**

 **Cloud Migration and Optimization**

 **Cost Optimization and Resource Management**

 **Cloud Native Architecture Design**

 **Platform Engineering**

 **Cloud & Container Security**

 **Kubernetes Security & ATO Consulting**

 **GitOps & CI/CD Implementation**

 **Staff Augmentation**

 **Training and Enablement Workshops**

DIFFERENTIATORS

- Minority-Owned Business
- Silver Member - CNCF
- US-based Employees
- Collaborative and Agile Approach
- Tiger Team Approach
- Telecom Industry Expertise
- Security and Compliance Focus
- Comprehensive Cloud Native Solutions
- Client-Centric Solutions
- Expertise in DevSecOps
- Scalability and Flexibility
- Diverse and Dispersed Team
- Strong Industry Partnerships
- Continuous Learning and Training
- Evidence -Backed Decision Making
- SLED Industry Experience
- Defense Contracting
- 25 Years of Infrastructure Experience

PAST PERFORMANCE

- SRE Platform Engineering and Kubernetes Deployment.
- Leveraged shadow data analysis to proactively identify and mitigate security risks, ensuring a robust and secure infrastructure.
- Implemented robust Kubernetes Zero Trust Security Hardening and achieved ATO Certification.
- Deployed and managed Kubernetes platforms (Amazon EKS, Azure AKS, and Rancher RKE) across the entire enterprise, ensuring their continuous operation and maintenance.
- Implemented efficient CI/CD GitOps pipelines, establishing comprehensive observability with Prometheus.
- Achieved successful ATO (Authority to Operate) certification, demonstrating compliance and trust in the infrastructure environment.
- Implemented private container and helm registry using Harbor.
- Canary upgrade for Istio in production.
- Istio service mesh implementation with virtual services and mTLS.

FEATURED CLIENTS

- Raytheon
- Bethesda Game Studios
- Valiant Solutions
- Cloud Aware Federal
